Details:

English - A poem was given with 10 questions.

Mathematics - The topics tested include algebra, perimeter, area, volume, surface area, mean, median, mode, range, word problems, sequences, prime factorisation, multiplication, ratios and proportion, mixed fractions, percentages, estimation, using algebraic techniques to solve problems, place values and addition, finding solutions using multiplication and addition. The test consisted of 25 questions.

Verbal - The topics tested include codes, odd one out, finding one letter to complete two pairs of words, making a compound word, identifying and following patterns, finding the right code, logic word problems. The test consisted of 30 questions.
Non-Verbal- The test consisted of 30 questions. The first five questions were “completing the series”, questions 6 to 14 were “finding the codes”, questions 15 to 23 were “finding a figure most like the given two”, questions 24 to 30 were “figure out how the 1st image is related to the 2nd”.

**Areas of improvement:**
- Should practice plenty of reading passages.
- Recall the definitions of mean, median, mode and range, practice algebra and word problems, recall areas of different shapes, practice volume and surface area of 3 dimensional shapes, practice percentage and ratios.
- Go through the mock test questions attached again.
- Practice “most like” questions in Non-Verbal and logic word problems in verbal.

**Average scores:**
English: 40%
Mathematics: 41.6%
Verbal: 52%
Non-Verbal: 57%
Overall: 47.75%
